

Driving to Milibangalala

Milibangalala is a fabulous place to camp and fish within the Maputo Elephant Reserve., just south of Maputo. Paul Van As has recently visited and provided DriveMoz with his routes.

From post by Paul van As: We took about 3-hours from the gate to Milibangalala but we were looking for birds and game. About 2-hours 30-minutes on our way back. You can do it faster if you are in a hurry. Just be careful at the first split as it is also a wetland. At the moment you can get through easily. In the past I had to keep left and stay under the power lines and skirt the wetland.
